

My Experience in Class 6!!

Simran Bhattacharyya; Class 7,

School is a place for fun,

For some people it has just began!

I was in the 6th class,

It was time to enjoy and do things fast!

I noticed that it was great,

With many friends to play in the break !

My best class mates,

Are going to leave me with lots of faith!!

I hate it when we shuffle,

Now, to get good friends we have to struggle!

Our class teacher was the best,

I don't want to leave her from all the rest!

Football was our best game,

Which we all played with lots of hope and fame!

Unique class was our name,

Why should we get from the teachers embarrassed and shame?

Naughty kids were the best,

Who copied in the class test!!

I love the class 6,

My best class which I will always miss!!
